TG Rehabilitation Program

Texas Guaranteed Student Loan Corporation’s (TG’s) rehabilitation program is an excellent opportunity to bring your account out of default, remove the default from your credit report, and restore your eligibility to receive federal student aid. When you have met all of the requirements of this program, your account will be eligible for sale to a participating rehabilitation lender (i.e., “rehabilitated”). Once rehabilitated, the original benefits of your student loan(s), including any remaining eligibility for deferments, forbearances, and repayment options will be reinstated.

Your qualifying monthly payment amount may be adjusted during the rehabilitation program based on additional default claims paid, or annual changes in collection cost rates or variable interest rates. After you have successfully completed the rehabilitation program, the lender will establish a new repayment term of 10 years (120 months), or up to 30 years (360 months) for consolidation loans, less nine months of payments made during rehabilitation. The payment schedule established with the lender may result in an increase or decrease in the monthly payment amount you paid to qualify for the rehabilitation program.

Unpaid interest and collection costs will be added to your principal balance (i.e., “capitalized”) at the time your loan is rehabilitated. Although collection costs applicable to each payment you make to qualify for the rehabilitation program may be at a higher percentage rate, capitalized collection costs will not exceed 18.5% of the unpaid principal and accrued interest at the time of rehabilitation. You may benefit from rehabilitation only once.

TG attempts to establish and maintain agreements with lenders to purchase rehabilitated loans; however, there may be periods during which no lender is participating in TG’s rehabilitation program. As long as you continue making regularly scheduled payments, you will remain eligible for the program when it resumes. TG reports the repayment status of your account and the timeliness of your payments to the nationwide consumer reporting agencies each month so it is important to stay on track.

On the attached Rehabilitation Agreement, you must provide your current contact information and the contact information of a reference with a separate address who will know how to contact you in the future. TG and its collection vendor must be able to validate the contact and reference information you provide. If any of the contact information changes, you must immediately notify TG or the collection vendor. Incomplete information may result in the delay or denial of your request for rehabilitation.

Please note, if you are attempting to re-establish eligibility to receive federal student aid, you must establish a satisfactory repayment agreement and your monthly payment must be received within 15 days of the due date. Under the rehabilitation program, payments may be received within 20 days of the due date. A payment made more than 20 days before or after the due date will be credited to your outstanding balance but may not count toward the rehabilitation program. This may delay you completing the program or require you to start the program over.

In order to participate in the rehabilitation program:

- You must make at least nine (9) timely monthly payments under an established satisfactory repayment agreement and continue making timely payments until your account is rehabilitated.
- Full payment must be received within 20 days (15 days for federal student aid eligibility reinstatement) of your scheduled due date each and every month. You may not combine more than one monthly payment in a single remittance, make a partial payments, **or** make a lump-sum payment toward future installments.
- At the time of rehabilitation, unpaid interest and collection costs (not to exceed 18.5%), if applicable, will be capitalized.
